Brand New Facility & Equipment

Broadway Animal Hospital has been serving the pet community of Edgewater, Loyola University, and surrounding areas for over 80 years. We pride ourselves on being the friendly & caring neighborhood veterinarian where a warm welcome always awaits you. We're adding an associate veterinarian to our practice as we grow!

We have years of experience providing high-level veterinary care and continue to embrace progressive medicine and support our doctors' niche passions. We are excited to add all new equipment (including ultrasound), a brand new surgery suite and 8 exam rooms!

We welcome veterinarians at all levels of experience and will happily mentor new graduates. We are open to doctors looking for full or part-time opportunities. If you're tired of "making do" with older facilities, now's the time to join our team!

About the area: Located in the Chicago neighborhood of Edgewater, we are minutes from the Metra and bus lines. Situated north of the Chicago Loop on the shores of Lake Michigan, this community is an antique and vintage shopper's haven! It is a quick 30 minutes to O'Hare International Airport and close to Wrigley Field! Enjoy all of Chicago's abundant offerings of diverse dining, shopping, museums, and sporting events.
